# FLOWING WITH SUCCESS: HIGHLIGHTS FROM WATER PHILIPPINES 2025

## EVENT OVERVIEW

**466**  
exhibiting brands  
and companies

**38** participating  
countries

**10,858** trade  
attendees

**9,000+** Gross  
Exhibition Space

The 7th edition of WATER PHILIPPINES 2025 concluded with brimming success, leaving a remarkable experience to the exhibitors, visitors, partners, and stakeholders involved in this prestigious B2B event for water supply, sanitation, industrial wastewater treatment, and purification. Held from 19 to 21 March 2025 at the World Trade Center Metro Manila, Pasay, the event showcased the power of in-person connections in fostering effective business relationships and facilitating knowledge sharing.

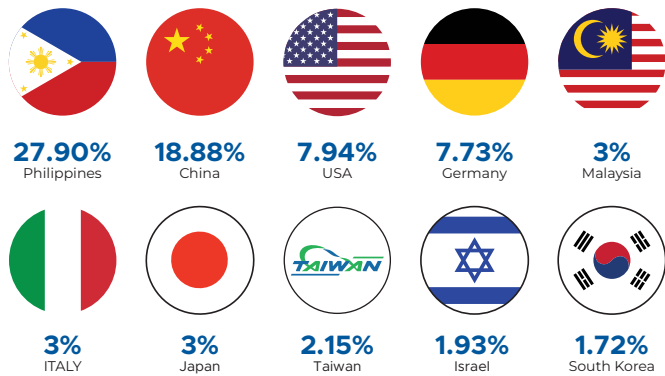

WATER PHILIPPINES 2025 not only served as a dynamic platform for networking but also played a crucial role in advancing the water industry. By bringing together key players and innovators, the event highlighted the latest technologies and strategies essential for addressing the pressing challenges faced by the sector. Participants left equipped with new insights and partnerships that are set to drive the future of water management in the Philippines and beyond.

# EXHIBITOR EXPERIENCE

**AIRA JOY GUTIERREZ**  
ASD PIPEPLAST SUPPLY  
AND SERVICES INC.

"We've been here for our 7th time now, and the new focus on sustainability is a true highlight of this edition. Our goal is to establish partner businesses while also entertaining our clients with our new products."

"Every time WATER PHILIPPINES takes place, we participate to attract more clients and showcase more of our product line."

"We always participate in WATER PHILIPPINES because many of our major clients come from this expo. Our goal is to secure a larger and better booth each time to attract new clients and boost our sales."

**JOYCELYN LIM**  
VITALITE TRADING  
CORPORATION

**UWE BENDER**  
ATEC GMBH

"This is our second time here. Last time was quite successful; we gained three projects in the Philippines, which is why we are back again this year."

"We are most excited to reconnect with our old contacts and also to gain some new ones."

"We believe that the Philippines has a significant market for the water industry, and being a part of this thriving sector is all thanks to WATER PHILIPPINES. We hope to secure more projects in this edition."

"This year, we are planning to expand across the Philippines by offering our portable and mobile containerized systems for water and wastewater treatment. We are excited to see all the exhibitors, their new products, current developments, and insights into the market and competition. WATER PHILIPPINES provides information to both the government and private sector by showcasing our products for water and wastewater treatment."

**CELSO UMALI JR**  
EARTH LAB INC.

"Our goal is to expand our connections, attract more clients, showcase our various products, and present our new client portfolio. I am most excited about the connections I can build with other professionals in the industry."

**RENATO GAWALA**  
TOZEN PHILIPPINES INC

# EXHIBITOR EXPERIENCE

"It's the beginning of what's predicted to be a great year. After coming out of the pandemic and going through a recovery period, 2025 is shaping up to be a time of exponential growth. As contractors focused on technology development, we're also excited to meet other suppliers and potential partners we can add to our team."

**NANIK CHOTRANI**  
PRESIDENT

"This is the biggest event we've joined so far—hopefully the first of many. Our goal is not only to connect with new suppliers and strengthen relationships with existing partners and clients, but also to introduce ourselves to a broader and more dynamic market in both the industrial and commercial sectors."

"The exposure, diversity of people, audiences, and industries coming together in one venue gives us a unique opportunity—not just to showcase who we are, but also to learn from others. This helps us improve the services and solutions we offer. Events like this are a great chance to grow, evolve, and position ourselves as a key player in the water treatment and filtration industry."

"We offer sustainable, cost-effective, and highly customized solutions tailored to the specific needs of our target market. This event provides the perfect platform to share those solutions, and that's why we're here—excited to learn, collaborate, and grow with everyone else in the industry."

**GUPTA VASU**  
CITY OF YOKOHAMA

**MA. VICTORIA VILLAN**  
GENERAL MANAGER  
HOUSTON HYDROTECH PRODUCTS AND SYSTEMS INC.

**CERLITO G. SAN JUAN**  
HOUSTON HYDROTECH PRODUCTS AND SYSTEMS INC.

"By joining WATER PHILIPPINES, we collaborate with our principles along with our customer and everyone in the industry as a whole"

"The Water Philippines Expo has grown significantly, with more exhibitors, more clients, and greater industry participation. Compared to before, the event is much bigger, showcasing new technologies and we have more collaboration between clients and suppliers."

"We've continuously participating with water philippines since the last 8-10 years, and we continue to do so, this is by far the most important water expo in the country"

**DENISE G. ATILANO**  
MANAGER  
HYDROPURE TECH PHILIPPINES CORPORATION

"The WATER PHILIPPINES EXPO 2025 is a great event because it reflects the culture, needs, and market potential of the country. I see many opportunities here, especially as the Philippines continues to grow and develop. I hope we can contribute by bringing quality products and innovative concepts to the market."

## VISITOR EXPERIENCE

"This is our first visit to WATER PHILIPPINES, and my colleague and I are quite impressed. We've been to many countries around the region—Indonesia, Singapore, Hong Kong. We're truly excited and impressed by the scale of the event. We were surprised to see so many companies eager to do business."

**AARON JAVIER**  
EDAC ELECTRONICS AUSTRALIA ASIA

"As a first-time visitor, I was amazed by the organizers' preparation, the diversity of the exhibitors, and the technology seminars offered. I'm excited to share what I've learned and gathered at WATER PHILIPPINES. I've had a very productive experience, and I encourage the organizers to continue their initiative to bring together wastewater and water treatment practitioners and professionals, both nationally and internationally. As this creates a space for sharing ideas that help our country and our planet."

# VISITOR EXPERIENCE

**MARTIN JANSEN**  
BLUE FOOT MEMBRANES

"We are very thankful for the opportunity to be part of Water Philippines and to share our experiences from PSSE. We are also glad that our attendees are so interested and attentive to our topic. This collaboration has been very successful, with different technologies and the expertise of various sanitary engineers being shared through PSSE. We are very thankful to be part of Water Philippines and to share our knowledge on various topics in the water industry."

**LANZE TOMAS**  
GOULDEN MYERS INTERNATIONAL CO.

"As part of the Local Government Unit of Antipolo, operating NTP's, we're here because we want to explore on what else can we do to improve our facilities by visiting this event. Indeed, Water Philippines provided as a lot of things which are new to us. We discover many technologies which we never thought of that we can apply in Antipolo. We hope for the success of this 3-day event and that you can help more professionals."

(EDCOP)

**ENGR. CARLITO SANTOS**  
UNIKLEAN ENVIROCONSTRUCTION CORP

"WATER PHILIPPINES is really big and very informative-something I'm looking forward to for the next event. As a supplier, we seek other products that can help us expand our portfolio. I really enjoy everything at Water Philippines; not only do I learn, but I also get to explore all the services and products."

**ROZZEMARK C. BERNARDINO**  
SANITARY ENGINEER 1  
CITY GOVERNMENT OF ANTIPOLO

**SHEKINAH GLORY B. ANONUEVO**  
ADMINISTRATIVE AIDE  
CITY GOVERNMENT OF ANTIPOLO

"The event is over all very good for me as a first timer visitor. My experience is SUPERB if I can say it. Why? Because I can see many suppliers and new technologies. It's very rare to see them often. They are all here. Being in the water and wastewater industry sector, we wanted to see different kinds of suppliers for our need in our wastewater facilities such as valves, pipes and other things. Thankfully, here we have suppliers not only locally but abroad that widens and provides other variations and choices."

"This is my second time in this expo, and this is one of the Water Expo Event that I really anticipate because we will be meeting again new suppliers that can introduce water and wastewater technology that can supply to our clients. As a process engineer, mostly I've been looking for other technologies that can modify our technologies for our water and wastewater. Another thing that I'm looking forward are the new learnings coming from suppliers from different countries that we can also provide to our clients."

# VISITOR EXPERIENCE

"For my first time here, WATER PHILIPPINES has been very informative and helpful in showcasing all the technologies and solutions available in the market."

"I enjoyed all the presentations; they were diverse and informative, really helping me to better understand the technology."

**DANICA MAROLLANO**  
METRO PACIFIC WATER

**ICEL RAGUDO**  
METRO PACIFIC WATER

"It is my first time, and I really like it. I've been to the same event in Germany and it's big, but this one is also big. Nice customers and suppliers to talk too and I enjoyed it. I'm looking for various products such as pipes, fittings, pumps, air pumps, and services which are also the best products for my clients."

This is my first time to visit WATER PHILIPPINES Event and it's great. It's nice to see different suppliers as well as new innovations.

All the best to all the organizers of Water Philippines. I hope more years to come and have more platforms like this for us, contractors and solution providers as well as suppliers. Finally, you do a very good job and very well done."

**OWEN LAGUNDAY**  
TERRAKUMA TECH INCH

"This is my first time to visit this event and I'm happy to see all the water companies and water technology companies gathered all together featuring all their innovative solutions for the Philippine water industry. What draws me here is to get in touch with the different people in the industry and learning more about their new technologies and solutions that they could offer since Metro Pacific Water is more on innovative solutions like advance technologies that we can use and partner with. Congratulations in this very successful event and we hope to see more partnership between different water industries. We're looking forward again with this such prestigious event."

"The first time I visited Water Philippines was in 2018 and it's such a big change for me, it's really something new because there's a lot of new things and technologies as well as technology providers. What drives me for this event is to generate more leads for our company as well as in a look out for a lot of technology partners, providers, and suppliers as well for better sustainability and servicing a lot of big companies."

## SHOW HIGHLIGHTS:

## EXPANDING HORIZONS IN WATER SOLUTIONS

WATER PHILIPPINES 2025 was larger than ever, offering an array of industry solutions and knowledge through a series of insightful conferences and seminars.

### 7<sup>th</sup> PHILWATER CONFERENCE

The long-standing partnership with the Philippine Water Works Association (PWWA) was further strengthened, reflecting their commitment to enhancing the water sector in the Philippines. This year's conference, themed "Sustainable Water Management: Innovations for Tomorrow," focused on vital topics aligned with PWWA's mandate to improve water services across the nation. Expert-led sessions provided attendees with valuable knowledge and practical solutions to implement in their respective organisations.

## REGIONAL WATER TALKS 2.0 CONFERENCE

Powered by:

Sponsor by:

The event also featured the Regional Water Talks 2.0, where speakers from Cambodia, Indonesia, Malaysia, and Taiwan engaged in lively discussions on shared challenges and collaborative opportunities in the water sector. This panel not only fostered regional cooperation but also unveiled innovative strategies that can be adapted across borders, promoting a united approach to water management.

With its impressive lineup of speakers, comprehensive sessions, and robust networking opportunities, WATER PHILIPPINES 2025 has undoubtedly set the stage for continued growth and innovation in the water industry.

# LUZON CONFERENCE

For the first time, the National Master Plumbers Association of the Philippines (NAMPAP) hosted an industry-focused conference specifically designed for master plumbers and professionals in the field. This groundbreaking event aimed to enhance expertise and update skills vital for the ongoing development of the water industry.

# PHILIPPINE SOCIETY OF SANITARY ENGINEERS (PSSE) SPECIAL CPD SEMINAR

Hosted by:

The Philippine Society for Sanitary Engineers (PSSE) took centre stage at WATER PHILIPPINES 2025, offering a series of conference sessions dedicated to the professional development of sanitary engineers across the nation. Recognising the critical role that sanitary engineers play in ensuring public health and environmental sustainability, the PSSE focused on equipping participants with essential skills and knowledge.

 **DAY 3 - 21 March 2025**

 **Seminar Room 1,  
Ground floor SMX**

 **1:30 PM - 4:00 PM**

# IWK WORKSHOP

ASTRICE

ASIAN SEWERAGE  
TRAINING, RESEARCH &  
INNOVATION CENTRE OF  
EXCELLENCE (ASTRICE)

WATERPHILIPPINES

## ENHANCING WASTEWATER MANAGEMENT PRACTICE TOWARDS ACHIEVING ENVIRONMENTAL RESILIENCE

19 - 20 March 2025

Seminar Room I,  
Exhibition Room I,  
SMX Convention Centre,  
Pasay City, Manila,  
Philippines

Organised by the Asian Sewerage Training, Research and Innovation Centre of Excellence (ASTRICE), the IWK Workshop effectively underscored the critical importance of enhancing public awareness and advancing wastewater treatment technologies. The discussions centred on the vital relationship between these technologies and Environmental, Social, and Governance (ESG) principles, emphasising the need for sustainable practices in the sector.
